We are certainly in good company as we become more globalized as an organization by developing and celebrating new alliances. We continue to cross borders and support economic opportunities for women that are increasing every day.

Cozumel has many opportunities for growth and investment and we find that women find this magical place especially conducive for doing businesses, creating strategic alliances and sharing entrepreneurial ideas. We invite all the women who want to broaden their vision, to learn, and to develop new networks, to come to Cozumel.

The Association of Women Entrepreneurs in Mexico (AMMJE - acronym in Spanish) has the intention and desire to give women an opportunity to explore areas of mutual gain. We are sure that this will be an unforgettable experience because your investment of time will undoubtedly benefit not only your business, but also provide an opportunity to refresh your spirit.
